

Figure 1 is a schematic representation of the experimental design. It shows a sequence of events: a stimulus (S), a response (R), and a feedback (F). The sequence is shown for three different conditions: 'Correct', 'Incorrect', and 'Unsure'. In the 'Correct' condition, the stimulus is 'C', the response is 'C', and the feedback is 'C'. In the 'Incorrect' condition, the stimulus is 'C', the response is 'I', and the feedback is 'I'. In the 'Unsure' condition, the stimulus is 'C', the response is 'U', and the feedback is 'U'. The sequence is shown for three different conditions: 'Correct', 'Incorrect', and 'Unsure'.
